PUBLIC HEALTH OFFICERS
OF THE COUNCIL

Medical Officer of Health - G. A. MACGREGOR, MD., D.P.H.

Public Health Inspector - R. G. SUDDICK, Cert. R.S.I. Lond.

WEARDALE RURAL DISTRICT COUNCIL

REPORT OF MEDICAL OFFICER OF HEALTH FOR 1967

To the Chairman and Members of the Weardale Rural District Council.

Ladies and Gentlemen,

I have the honour to submit the Annual Report on the Public Health of your Area for the year 1967.

Once again the Death Rate of 16.24 per 1000 population has exceeded the Birth Rate of 13.66 per 1000 population, the corresponding figures for England and Wales being 11.2 and 17.2. A comparative table of birth and death rates is shown on page 5. The table on pages 6 and 7 gives the principle causes of death in age groups and shows that deaths from heart and circulatory diseases amounted to 50.4% of all deaths. There were no deaths of infants under 1 year.

Of the infectious diseases only Measles continued endemically. There were no cases of Poliomyelitis or other notifiable diseases with the exception of one case of Tuberculosis in an adolescent male. No deaths were recorded from this disease for the third year in succession.

Throughout the year immunisations against Poliomyelitis, Diphtheria, Whooping Cough and Tetanus, were continued at clinics, surgeries and in schools, with a satisfactory response. Also Tuberculin Testing was carried out among children on entering school and all positive reactors were followed up and examined by a Chest Specialist. Among the 11 year to 18 year old school children Tuberculin Testing was followed by B.G.G. immunisation among negative reactors, while among positive reactors complete "follow ups" were conducted.

Undulant Fever was discovered in 1 cow in your area during the year and steps were taken to isolate and destroy the infected animal and for the milk to be pasteurised until the affected herd was declared free from infection.

House visiting for housing and family problems were continued during the year by your Health Inspector, myself and also by officers of the County Council.

In conclusion, the general state of public health is being maintained at a good level so far as your area is concerned and I would like to thank members and the Council staff for their cordial help and assistance during the year.

I have the honour to be
Your obedient servant,

G. A. MACGREGOR.

CONDITIONS OF THE AREA

Population (Registrar General's Estimate - Mid Year)	8,190
Area (in acres)	99,652
Number of Inhabited Houses	3,299
Rateable Value	£394,830
Product of Penny Rate	£1585.

A N N U A L R E P O R T
of the
P U B L I C H E A L T H I N S P E C T O R
FOR THE YEAR ENDED 31ST DECEMBER, 1967

WATER SUPPLIES

The whole of the Weardale Rural District is within the area of supply of the Durham County Water Board.

During the year the supplies were satisfactorily maintained and no complaints of shortage arose.

SEWERAGE AND DRAINAGE

Ministry approval to the sewerage schemes to serve the Western Area (74,892) and the Wolsingham District £61,153) was received the previous year.

The construction of the new sewage works near Brotherlee, to serve the Upper Weardale part of the district, from Westgate to Cowhill, was progressing favourably.

SANITARY ACCOMMODATION

The position regarding the installation of water closets continues to improve and the schemes for sewerage, now in progress, particularly in the western part of the area, will allow even greater improvements.

Three property owners took advantage of the Council's scheme, allowing a grant for water closet conversions, and during the year grants totalling £68. 2. 6d were paid. Several more water closets were also installed under the Housing Improvement Grant Schemes.

The types of closets in the area, at the end of the year were:-

Water Closets	- 2905
Ash-closets etc.	- 362
Ashpit-privies	- 23.

PUBLIC CLEANSING

The collection of household refuse was carried out satisfactorily the two Shelvoke & Drewry and the one Ford Thames refuse collecting vehicles being engaged solely on this work.

The estimated weight of refuse removed was 6,091 tons and the vehicles covered a total mileage of 21,052.

Refuse was disposed of at the tips at Lanehead Quarry, Stanhope; Brown's Houses Quarry, Frosterley and Harperley Bank Quarry.

PREVENTION OF DAMAGE BY PESTS

The whole time rodent operator was engaged on the disinfection of dwellings, business premises, farms, refuse tips, sewers and sewage disposal works. Of the properties inspected, treatment (including re-treatments) were carried out on 204 dwellings, 19 business premises and farms and 35 other properties (refuse tips and sewage works).

Cost of the work on business premises and farms was recovered on the basis of actual cost plus overhead expenses.

SHOPS AND FOOD PREMISES

Routine inspections of the shops and food premises were carried out, the standard of these being generally satisfactory. Inspections were also carried out in connection with registrations for the sale of ice cream.

INSPECTION AND SUPERVISION OF FOOD

Inspections of the three registered private slaughter-houses in the district were carried out and these were found to be satisfactory.

During the year 1967, the carcasses of 298 cattle, 711 sheep and 29 pigs were inspected. The standard of animals slaughtered was generally good, and only small amounts of liver and other minor parts were condemned.

Tinned foods in shops were condemned and in each of the 68 instances, the food was surrendered voluntarily.

SMOKE ABATEMENT

No action was found necessary regarding smoke abatement. There are few industries in the district of the type associated with smoke nuisance.

FACTORIES ACTS.

Inspections were carried out under the Factories Acts. Minor defects were remedied in one instance.

OFFICES, SHOPS & RAILWAY PREMISES ACT

Further inspections were carried out in connection with the registrations under this Act.

At the end of the year 13 offices and 18 retail shops etc., employing 96 persons (36 males and 60 females) had been registered.

CARAVAN & CAMPING SITES

With the increase in the number of holiday caravan sites, further inspections were carried out under the Caravan Sites and Control of Development Act, 1960, in connection with site licence requirements.

SANITARY INSPECTION OF THE AREA

The following is a summary of visits undertaken by the Department during the year:-

Housing (Public Health & Housing Acts)	302
Sanitary Conveniences	28
Drainage	64
Water Supply	11
Food Premises	138
Shops Acts	148
Dairies	4
Slaughter-houses	42
Caravans and Camping Sites	74
Factories and Workplaces	36
Insanitary ashpits and receptacles	24
Offensive accumulations	2
Prevention of Damage by Pests	64
Boarding Kennels	1.

HOUSING

(a) Local Authority

During the year 44 new Council houses were completed and occupied - 20 at the Bond Isle Way Site, Stanhope and 24 (Industrialised) at Lynndale, Wolsingham.

(b) Private Dwellings

Seven new private dwelling houses were completed and occupied during the year as follows:-

Edmundbyers	-	1
Stanhope	-	5
Wolsingham	-	1

One additional house was provided by conversion at Frosterley.

Ten other houses were in course of erection at:-

Edmundbyers	-	2
Wolsingham	-	2
Stanhope	-	3
Frosterley	-	1
Thornley Village	-	1
Daddry Shield	-	1

(c) Improvement Grants

(a) Discretionary Grants

Applications submitted and approved during the year	-	43
Applications rejected during the year	-	0
Completion Grants paid during the year	-	43
Approximate average grant per house during the year	-	£333. 0. 0
Total number of applications approved since inception of scheme	-	578.

(b) Standard Grants

Applications submitted and approved during the year	-	18
Completion Grants paid during the year	-	16
Approximate average grant per house during the year	-	£103.19. 0
Total number of applications approved since inception of scheme	-	105.

I have the honour to be

Yours obediently,

R. G. SUDDICK

Public Health Inspector
& Surveyor
